Pockets Bar Graph

**Family Note**Help your child fill in the table below. Then display the data by making a **bar graph**.*Please return this Home Link to school tomorrow.*

1. Pick five people. Count the number of pockets that each person's clothing has. Complete the table.
2. Draw a bar graph for your data. First, write the name of each person on a line at the bottom of the graph. Then color the bar above each name to show how many pockets that person has.

Name	Number of Pockets

How Many Pockets?
