

# How the World Works

## Central Idea:

People create solutions to changing landforms.

## Lines of Inquiry:

- Identify landforms on a map.
- Factors that change landforms.
- Features of a solution.

## Teacher Questions

1. What is a landform?
2. What is a map?
3. How does a landform change?
4. Why do we need solutions?
5. Is there always a solution?

## Student Questions

1. What types of landforms are there?
2. Why do people make or build different landforms?
3. How do people find out about the different landforms?
4. How do landforms melt?
5. Why are there different landforms?
6. How do people live on different landforms?
7. How does the landform change?
8. What types of landforms are in Fujairah?
9. How do people find food in different landforms?
10. Are there red landforms?
11. Can we find gold in different landforms?
12. What shapes are the different landforms?
